

BUTTERFLY BATH

FREE AS A BUTTERFLY

THAT IS HOW YOU FEEL IN OUR EXERCISE BATHS

We believe that in optimal aquatic therapy, clients should experience full freedom of movement. We also believe in treatment baths that are ergonomically optimised for the therapist, saving time and back injury.

We supply well designed butterfly baths which meet the strictest requirements with regards to client range of movement, ergonomics, hygiene and durability.

Fitted with a strong underwater massage unit, the butterfly bath offers intensive stimulation of muscles and joints. we can maintain water temperature and guarantees excellent water quality and hygiene.

A butterfly bath can either be made out of first grade stainless steel AISI 316, or glass fibre reinforced polyester. It can be supplied in types.

Have clients experience full freedom of movement with an butterfly bath.
